News Release

FOR IMMEDIATE RELEASE

Reston, Va. – Presidium Inc., the world leader in education services management, is pleased to announce the opening of its newest operations center in Killeen, Texas. Presidium helps higher education institutions improve student engagement, retention, and success. It currently works with more than 700 of the most progressive education providers in the country and is opening its new center in Killeen to accommodate its continued growth. Presidium is headquartered in Reston, Virginia and maintains an operations campus located in Somerset, Kentucky.

Presidium has selected Killeen and the former Convergys building located at 4501 Roy J. Smith Drive in the Killeen Business Park as the site for its expanded operations to tap the skills of the local workforce and build upon the region's infrastructure. The site will house a growing team of IT services, financial aid, and enrollment counselors dedicated to driving client results in every major benchmark.

“The value we have provided our customers has fueled demand for Presidium’s technology-enabled, virtualized services. With this expansion, we are pleased to leverage the contact center and financial aid experience native to the Killeen area, as well as provide meaningful employment opportunities for military families at Fort Hood,” says Greg Davies, Chief Executive Officer of Presidium Inc.

Presidium is partnering with the Workforce Solutions group of Central Texas to host at least two job fairs at the Workforce Solutions office at 300 Cheyenne in Killeen. “Our goal is to hire more than 400 qualified personnel in Killeen over the next 90 days” according to Bob Abraham, Senior Vice President at Presidium. Job seekers with previous experience in contact center services, financial aid, enrollment management, information technology or have a strong interest in helping people meet their education goals, should plan to attend a job fair and learn more about career opportunities with Presidium.

Job fairs will be held on June 30 and July 1 from 10 am – 2 pm. Applicants should apply in advance at pljobs.com and bring resumes to review with onsite recruiters. Training classes are scheduled to begin the week of July 12, 2010.

About Presidium

Presidium is an education services management company and partner to more than 700 of the most progressive education providers. Our market leadership is earned by driving client results in every major benchmark, including retention, enrollment growth, operational efficiencies, and financial aid utilization. We do this through virtualized services, education process redesign, and technology solutions.
